

Training

for HRC Staff
& Parent Providers

Introduction

- **Setworks is a software that HRC utilizes for parent providers and staff to keep track of their service hours and notes while caring for individuals.**
- **It is very important to be sure to check in and out each time service is being provided to an individual and to document the types of activities and learning that are being completed during that time. This documentation should be relevant to the goals (outcomes) that are set forth in the individuals Individual Support Plan (ISP).**

SETWORKS DESKTOP

- To navigate to Setworks on the desktop*, simply type
- www.set-works.com
- into your web browser.
- *You will be checking in and out on your mobile device. However, if you forget to input notes for a specific day, you will need to access the desktop platform to edit the entry to add the note.

NETWORKS MOBILE

- **Navigate to the browser on your phone. If you are using iPhone, please use Safari to navigate.**
- **You will type the following into your navigation bar on the browser:**
www.set-works.com

We create software that empowers disability service agencies

Today, Debbie worked on sharing and working together. We did this by working on a puzzle together and Debbie was able to look at the finished product and saw that teamwork pays off. We did this at her home in Beach Lake while providing respite for her parent provider.
